Professional Summary

Junior Data Analyst with 1+ year of hands-on analytics experience, a statistical background, and training at NTI. Skilled in ETL pipelines, data quality, and stakeholder reporting, with proficiency in Power BI, SQL Server, Tableau, Python, R, and Excel. Delivered end-to-end analytics across marketing, HR, e-commerce, telecom, and startup ecosystems, producing actionable insights including 207% YoY growth identification, \$1.67M churn risk modeling, and large-scale funding pattern analysis across 196K startups.

Experience

Data Analytics Intern - National Telecommunication Institute (NTI) Mar 2026 - May 2026

- Completed a 3-month Data Analytics internship focused on SQL, Python, Power BI, Tableau, Excel, and Business Analytics, working on real-world business datasets.
- Performed data cleaning, transformation, and exploratory data analysis on real-world datasets.
- Delivered end-to-end analytics pipeline on 1.45M+ records across 11 tables – Python (Pandas), SQL Server (Relational Data Modeling, Query, Joins), Power BI (Power Query, Data Modeling, Dax)
- Developed interactive Power BI dashboards and analytical reports to communicate insights.

Freelance Data Analyst May 2025 - Present

Sales Management System - Coffee Grinder Client

- Built a comprehensive sales management and analytics system using Power Query, PivotTables, XLOOKUP, Dynamic Arrays, Data Validation, Conditional Formatting, and Interactive Dashboards to automate pricing, KPI reporting, and sales performance tracking.
- Reduced manual reporting efforts by automating calculations and providing real-time performance visibility for business monitoring.

Projects

- Olist E-Commerce Analytics - Python, SQL Server, Power BI**
Built an end-to-end analytics pipeline for 100K+ orders, uncovering 207% YoY growth, customer churn risk, and revenue optimization opportunities.
github.com/ali-0128/olist-e-commerce-analytics
- Startup Ecosystem Analysis - Python, SQL Server, Power BI**
Analyzed 196K startups across 175 countries to uncover \$419.7B in funding patterns, identify success drivers, and explore factors influencing startup exits.
github.com/ali-0128/startup-ecosystem-analytics
- HR Performance Analytics Dashboard - Tableau**
Analyzed 497K+ employee records across 150 stores, identifying attrition trends, workforce performance drivers, and relationships between satisfaction, training, and compensation.

Skills

- Data Visualization & BI:** Power BI (DAX, Power Query, Data Modeling, Dashboards), Tableau, Looker Studio, Excel (PivotTables, Advanced Formulas, Dashboards), Google Sheets, Google Analytics
- Programming & Databases:** Python (Pandas, NumPy, Statsmodels, Matplotlib, Seaborn, Plotly), SQL Server (Joins, CTEs, Window Functions, Subqueries, Database Design), R, BigQuery, ETL Pipelines
- Data Quality & Governance:** Data Cleaning, Data Validation, Data Wrangling, Data Integrity, Accuracy
- Analytical Methods:** EDA, Descriptive & Inferential Statistics, Regression, Hypothesis Testing, A/B Testing
- Business Analysis:** Requirements Gathering, KPI Definition, Process Improvement, Cross-functional Collaboration, Actionable Insights, Reporting, Data Storytelling
- Business Metrics:** Churn Analysis, Cohort Analysis, RFM, CLV, KPIs (ROI, CVR, AOV, CAC, NPS, FCR, AHT)
- Tools:** Git & GitHub, Jupyter Notebook, VS Code, PowerPoint, Automation Tools
- Soft Skills:** Problem Solving, Critical Thinking, Attention to Detail, Stakeholder Communication

Education

Al-Azhar University, Cairo Sep 2019 - Aug 2023
Bachelor of Psychology and Statistics GPA: 3.6 / 4.0
Relevant Coursework: Statistics and Probability, Research Methods, Behavioral Data Analysis.

Courses & Certifications

Data Analysis Track - Information Technology Industry Development Agency Feb 2026
Data Analysis with Python - FreeCodeCamp Mar 2025
Building Business Reports Using Power BI - 365 Data Science Nov 2024
Thinking Like an Analyst - Maven Analytics Oct 2024

Language: Arabic (Native) English (Working Proficiency)
