

Ali Rabie Mahmoud

Data Analyst | Business Intelligence | Power BI | SQL | Excel | Tableau | Python
Giza, Egypt | +201129240415 | alirabie0128@gmail.com | LinkedIn | Portfolio | GitHub

Professional Summary

Data Analyst with 1+ year of hands-on experience in Data Visualization, and end-to-end analytics to transform raw data into actionable business insights. Proficient in Microsoft Power BI, SQL Server, Microsoft Excel, Tableau, and Python. Delivered 15+ analytics projects across different industries.

Experience and Projects

- Business Analytics Intern | Auspify Technologies

Jul 2026–Present | Remote

 - Delivered 6 business analytics projects covering audience segmentation, KPI development, market analysis, and dashboard reporting using Power BI and Excel.
 - Built reports and dashboards that improved performance visibility and supported decision-making.
- Data Analytics Intern | National Telecommunication Institute (NTI)

Mar 2026–May 2026 | On-site

 - Completed a 3-month intensive Data Analytics program focused on real-world business datasets and end-to-end analytics workflows.
 - Built a full analytics pipeline on 1.45M+ records across 11 tables, covering data cleaning, exploratory data analysis, relational modeling, and dashboard reporting.
 - Used Python (Pandas) for data preprocessing and analysis, SQL Server for schema design and querying, and Power BI for data modeling, DAX, and interactive dashboards.
 - Transformed raw multi-table data into structured insights for reporting and decision support.
- Freelance Data Analyst | Self-Employed

Jul 2025–Present

 - Delivered client projects focused on sales analytics, pricing automation, KPI reporting, and performance tracking.
 - Built Excel-based business solutions using Power Query, PivotTables, XLOOKUP, and interactive dashboards.
 - Reduced manual reporting effort and improved real-time visibility into business performance for stakeholder.
- Startup Ecosystem Analysis – Python | SQL Server | Power BI

 - Analyzed 196K startups across 175 countries to uncover \$419.7B in funding trends, identify key success drivers, and explore factors influencing startup exits.
 - Combined large-scale data analysis and visualization to highlight investment patterns and ecosystem performance across markets.
- Olist E-Commerce Analytics – Python | SQL Server | Power BI

 - Built an end-to-end analytics pipeline for 100K+ orders, covering data cleaning, transformation, analysis, and dashboard reporting.
 - Identified 207% year-over-year growth, customer churn risks, and revenue optimization opportunities through business-focused analysis.
- HR Performance Analytics Dashboard - Tableau

 - Analyzed 497K+ employee records across 150 stores to identify attrition trends and workforce performance drivers.
 - Explored relationships between employee satisfaction, training, compensation, and retention outcomes.

Skills

- BI & Visualization:** Power BI (Power Query, DAX, Star Schema), Advanced Excel (Power Query, PivotTables, XLOOKUP), Tableau, Looker Studio, Google Sheets, Google Analytics.
- Databases & Programming:** SQL Server(Schema Design, Joins, CTEs, Subqueries, Window Functions, View), Python (Pandas, NumPy, Statsmodel, Plotly), ERD, Normalization, ETL Pipelines, BigQuery.
- Data Analytics:** Data Collection, Data Wrangling, Data Cleaning, Data Validation, Data Integrity, Data Modeling, KPI Development, Dashboard Development.
- Analytical Methods:** EDA, Regression Analysis, Hypothesis Testing, A/B Testing, Predictive Modeling.
- Tools & Platforms:** Git & GitHub, Jupyter Notebook, VS Code, MS Word, MS Power Point.
- Soft Skills:** Business Storytelling, Presentation Skills, Problem Solving, Critical Thinking, Attention to Detail, Communication, Teamwork, Stakeholder Communication.
- Language:** Arabic (Native), English (Professional Working Proficiency).

Education

- Faculty of Education, Al-Azhar University, Cairo

2019-2023

 - Major: Psychology and Statistics Department | Grade: Very Good
 - Relevant Coursework: Statistics and Probability, Research Methods, Behavioral Data Analysis.

Certifications & Programs

- Data Analysis Track - Information Technology Industry Development Agency **(Feb-2026)**
- Data Analysis with Python - FreeCodeCamp **(Mar-2025)**
- Building Business Reports Using Power BI - 365 Data Science **(Nov-2024)**
- Thinking Like an Analyst - Maven Analytics **(Oct-2024)**
